The Journal of Infectious Diseases

Volume 125 • *January 1972* • *Number 1*

Contents

Original Articles

A Comparison of the Ultrastructure of the Small-Colony Variant and the Parent Strain of Methicillin-Resistant *Staphylococcus aureus*. ROGER J. BULGER, MAUREEN COLLMAN, POLLY FEIGL, and RUTH E. BULGER 1

Immunity in Shigellosis. I. Response of Man to Attenuated Strains of *Shigella*. HERBERT L. DUPONT, RICHARD B. HORNICK, MERRILL J. SNYDER, JOSEPH P. LIBONATI, SAMUEL B. FORMAL, and EUGENE J. GANGAROSA 5

Immunity in Shigellosis. II. Protection Induced by Oral Live Vaccine or Primary Infection. HERBERT L. DUPONT, RICHARD B. HORNICK, MERRILL J. SNYDER, JOSEPH P. LIBONATI, SAMUEL B. FORMAL, and EUGENE J. GANGAROSA 12

Experimental Effects of Hyperbaric Oxygen on Selected Clostridial Species. I. In-Vitro Studies. GALE B. HILL and SUYDAM OSTERHOUT 17

Experimental Effects of Hyperbaric Oxygen on Selected Clostridial Species. II. In-Vivo Studies in Mice. GALE B. HILL and SUYDAM OSTERHOUT 26

Quantitative Studies of Toxin in the Stools and Jejunal Aspirates of Patients with Cholera. K. M. S. AZIZ and W. HENRY MOSLEY 36

Increased Antibodies to IgG Fragments: Correlation with Infection due to Gram-Positive Bacteria. MARION WALLER and RICHARD J. DUMA 45

Infection with *Diplococcus pneumoniae* and *Salmonella typhimurium* in Monkeys: Changes in Plasma Lipids and Lipoproteins. ROBERT H. FISER, JOSEPH C. DENNISTON, and WILLIAM R. BEISEL 54

Notes

Reactivity of Treponemal and Nontreponemal Tests with Cerebrospinal Fluid from Syphilitic Chimpanzees. WILLIAM P. DUNCAN and U. S. GRANT KUHN III 61

Excretion of Aflatoxin by Frogs after Implantation with *Aspergillus flavus*. THOMAS C. BREWSTER and DALE W. GRANT 66

Rodents as Vectors for Feline Coccidia, *Isospora felis* and *Isospora rivolta*. J. K. FRENKEL and J. P. DUBEY 69

Delayed Hypersensitivity to Hepatitis-associated Antigen in Guinea Pigs. GILBERT R. IRWIN, JR., WALTER J. HIERHOLZER, JR., and ROBERT W. MCCOLLUM 73

Editorial

Reye's Syndrome. HARRIS D. RILEY, JR. 77

From the Center for Disease Control

Prevention and Control of Varicella-Zoster Infections. RICHARD G. JUDELSOHN 82

Infectious Diseases Society of America

Microbiology and Clinical Medicine—A Personal View. ROBERT AUSTRIAN 85

Squibb Award 92

Original Articles

Pseudomonas aeruginosa in a Center for Cancer Research. I. Distribution of Intraspecies Types from Human and Environmental Sources. MARCIA R. MOODY, VIOLA M. YOUNG, D. M. KENTON, and G. D. VERMEULEN 95

Anti-*Candida* Factors in Serum and Their Inhibitors. I. Clinical and Laboratory Observations. DONALD B. LOURIA, J. KELLY SMITH, ROBERT G. BRAYTON, and MARGA BUSE 102

Anti-*Candida* Factors in Serum and Their Inhibitors. II. Identification of a *Candida*-Clumping Factor and the Influence of the Immune Response on the Morphology of *Candida* and on Anti-*Candida* Activity of Serum in Rabbits. J. KELLY SMITH and DONALD B. LOURIA 115

The Simultaneous Occurrence of Subacute Sclerosing Panencephalitis in Two Brothers. I. Clinical, Virologic, and Histopathologic Studies. LAWRENCE T. CH'IEN, WALTER H. WILBORN, JOSHUA H. CAREY, RICARDO CEBALLOS, JOHN W. BENTON, and CHARLES A. ALFORD 123

The Staphylococcal Scalded-Skin Syndrome: Isolation and Partial Characterization of the Exfoliative Toxin. MARION E. MELISH, LOWELL A. GLASGOW, and MICHAEL D. TURNER 129

Restriction by Polycations of Infections with Myxoma Virus in Rabbits. DENNIS L. WEGNER and HARRY C. HINZE 141

Preparation of Vaccines for Rocky Mountain Spotted Fever from Rickettsiae Propogated in Cell Culture. RICHARD H. KENYON, WILLIAM M. ACREE, GEORGE G. WRIGHT, and FRED W. MELCHIOR, JR. 146

Lethal Toxicity of *Mycoplasma fermentans* for Mice. MICHAEL G. GABRIDGE, GERALD D. ABRAMS, and WILLIAM H. MURPHY 153

Review

Smallpox in Europe, 1950–1971. THOMAS M. MACK 161

Notes

Treatment of Carriers of *Salmonella typhi* with Intravenous Ampicillin. C. SCIOLI, F. FIORENTINO, and G. SASSO 170

Interferon Response in Cats. BRUCE MCCULLOUGH 174

Patterns of Immunoglobulins in Acute Viral Hepatitis: Relation to Hepatitis-associated Antigen. STEN IWARSON and JAN HOLMGREN 178

Effects of the Combination of Gentamicin and Carbenicillin on the Bactericidal Activity of Serum. JEAN KLASTERSKY, GEORGES VAMECQ, ROGER CAPPEL, GODELIEVE SWINGS, and LINDA VANDENBORRE 183

The Effect of Nitrofurantoin on the Morphology of Gram-Negative Bacilli. VICTOR LORIAN and BODUN POPOOLA 187

Editorial

Problems in the Diagnosis and Treatment of Systemic Candidiasis. ELLIOTT GOLDSTEIN and PAUL D. HOEPRICH 190

From the Center for Disease Control

Malaria Surveillance in the United States and Puerto Rico—1970. PETER D. WALZER, ARTHUR S. DOVER, and MYRON G. SCHULTZ 194

Salmonella Surveillance—1970. MARSHALL D. FOX, MATTHEW S. LOEWENSTEIN, and STANLEY M. MARTIN 196

Infectious Diseases Society of America

Bristol Award 1971 199

Artenstein Honored 202

Erratum

(Cox, C. E., and Harrison, L. H., 124 (Suppl.):S156–S163) 202

Volume 125 • *March 1972* • *Number 3*

Original Articles

Cutaneous Responses to Cholera Skin Toxin in Man. I. Responses in Unimmunized American Males. JOHN P. CRAIG, EDWARD R. EICHNER, and RICHARD B. HORNICK 203

Effect of Radiation on Specific Cellular Immunities: Besnoitiosis and a Herpesvirus Infection of Hamsters. J. K. FRENKEL and H. R. WILSON 216

An Antibody-Complement System in Human Serum Lethal to L-Phase Variants of Bacteria. ZELL A. MCGEE, HILDA B. RATNER, RICHARD E. BRYANT, ALAN S. ROSENTHAL, and M. GLENN KOENIG 231

Relation between Naturally Acquired Immunity and Infectivity of Two Rhinoviruses in Volunteers. J. OWEN HENDLEY, WILLIAM P. EDMONDSON, JR., and JACK M. GWALTNEY, JR. 243

The Effect of *Schistosoma mansoni* Infection on the Response of Mice to *Salmonella enteritidis* and *Listeria monocytogenes*. F. M. COLLINS, D. L. BOROS, and K. S. WARREN 249

Age-dependent Resistance to Viral Encephalitis: Studies of Infections Due to Sindbis Virus in Mice. RICHARD T. JOHNSON, HENRY F. MCFARLAND, and SUSAN E. LEVY 257

Separation and Purification of Hepatitis-associated Antigen into Morphologic Types by Zonal Ultracentrifugation. HOWARD E. BOND and W. T. HALL 263

Patterns of Immune Response in Chronic Pulmonary Histoplasmosis. ROBERT H. ALFORD and ROBERT A. GOODWIN 269

Antigens of *Histoplasma capsulatum*. I. Serologic Differences between Histoplasmins Derived from Albino and Brown Filamentous Isolates. THOMAS G. WHITE, ROBERT G. GARRISON, JOY L. CLARK, and LEO E. JOHNS, JR. 276

Lymphocyte Transformation in Human Toxoplasmosis. JAMES L. KRAHENBUHL, J. DAVID GAINES, and JACK S. REMINGTON 283

Review

Brucellosis in the United States. LAWRENCE A. BUSCH and RICHARD L. PARKER 289

Notes

The Susceptibility of *Bacteroides fragilis* to 24 Antibiotics. JAY WARD KISLAK 295

Stimulation of Intestinal Secretion In Vitro by Culture Filtrates of *Escherichia coli*. QAIS AL-AWQATI, CRAIG K. WALLACE, and WILLIAM B. GREENOUGH III 300

Cytomegalovirus Macroglobulin in Cell-associated Herpesvirus Infections. JAMES B. HANSHAW, JAMES C. NIEDERMAN, and LAWRENCE N. CHESSIN 304

Susceptibility of Dogs and Cats to Rift Valley Fever by Inhalation or Ingestion of Virus. GARRETT V. KEEFER, GLEN L. ZEBARTH, and WILLIAM P. ALLEN 307

Reduced Plating Efficiency on Salmonella-Shigella Agar of Strains of Enterobacteriaceae Carrying Transferable Drug-Resistance Factors. MASANOSUKE YOSHIKAWA 310

Differentiation of TRIC and LGV Organisms Based on Enhancement of Infectivity by DEAE-Dextran in Cell Culture. CHO-CHOU KUO, SAN-PIN WANG, and J. THOMAS GRAYSTON 313

T-Mycoplasmas from Urine and Vaginal Specimens: Decreased Rates of Isolation and Growth in the Presence of Thallium Acetate. YHU-HSIUNG LEE, PENRHYN E. BAILEY, and WILLIAM M. MCCORMACK 318

Vaccination and Challenge of Mice with Viruses of the Rabies Serogroup. GREGORY H. TIGNOR and ROBERT E. SHOPE 322

Correspondence

Detection of Bacteremia. EDWARD B. LEWIN 325

Identification of *Pseudomonas pseudomallei*. CHARLES H. ZIERDT 325

From the Center for Disease Control

Current Status of Rubella in the United States. A. DAVID BRANDLING-BENNETT, SHELBY A. WYLL, and M. GILBERT GRAND 327

Outbreaks of Waterborne Diseases in the United States, 1961–1970. ANDREW TAYLOR, JR., GUNTHER F. CRAUN, GERALD A. FAICH, LELAND J. MCCABE, and EUGENE J. GANGAROSA 329

From the National Institutes of Health

Workshop on the Biology of the Treponemes. RICHARD M. KRAUSE 332

Workshop on Paramyxoviruses 336

Infectious Diseases Society of America

Officers and Council 1971–1972 337

Volume 125 • *March 1972* • *Supplement*

Maxwell Finland: Curriculum Vitae S1

A Birthday Greeting. EDWARD H. KASS and JEROME O. KLEIN S2

A Son of Harvard. ROBERT H. EBERT S3

Fellows in Infectious Diseases (Harvard Medical Unit) at the Boston City Hospital, 1934–1972 S4

The Pneumococcus and the Human Host. HARRY F. DOWLING S8

Specific Antibody Response of Human Subjects to Intracutaneous Injection of Pneumococcus Products. MAXWELL FINLAND and W. D. SUTLIFF. (Reprinted from *The Journal of Experimental Medicine* 55:853–865, 1932.) S10

Recurrences in Pneumococcus Pneumonia. MAXWELL FINLAND and ALEXANDER W. WINKLER. (Reprinted from *The American Journal of the Medical Sciences* 188:309–320, 1934.) S15

The Beginning of Antimicrobial Therapy: Introduction of the Sulfonamides and Penicillins. HARRY A. FELDMAN S22

Specific Treatment of the Pneumococcic Pneumonias; An Analysis of the Results of Serum Therapy and Chemotherapy at the Boston City Hospital from July 1938 through June 1939. MAXWELL FINLAND, WILLIAM C. SPRING, JR., and FRANCIS C. LOWELL. (Excerpted from the *Annals of Internal Medicine* 13:1567–1593, 1940.) S26

Treatment of Meningococcal Meningitis with Penicillin. MANSON MEADS, H. WILLIAM HARRIS, BERNARDO A. SAMPER, and MAXWELL FINLAND. (Reprinted from *The New England Journal of Medicine* 231:509–517, 1944.) S36

Nonbacterial Pneumonias: Contributions of Maxwell Finland Revisited. GEORGE GEE JACKSON S47

The Cocoanut Grove Disaster. CHARLES S. DAVIDSON S58

Clinical and Therapeutic Aspects of the Conflagration Injuries to the Respiratory Tract Sustained by Victims of the Cocoanut Grove Disaster. MAXWELL FINLAND, CHARLES S. DAVIDSON, and STANLEY M. LEVENSON. (Excerpted from *Medicine* 25:215–283, 1946) S60

Contributions of Maxwell Finland to the Clinical Pharmacology of Antibiotics. CALVIN M. KUNIN S74

The New Antibiotic Era: For Better or for Worse? MAXWELL FINLAND. (Reprinted from *Antibiotic Medicine and Clinical Therapy* 4:17–20, 1957.) S77

Antibiotic Blood Level Enhancement. MAXWELL FINLAND. (Reprinted from *Antibiotic Medicine and Clinical Therapy* 5:359–363, 1958.) S80

Hospital Epidemiology in the Work of Maxwell Finland. THEODORE C. EICKHOFF S84

Occurrence of Serious Bacterial Infections Since Introduction of Antibacterial Agents. MAXWELL FINLAND, WILFRED F. JONES, JR., and MILDRED W. BARNES. (Reprinted from *The Journal of the American Medical Association* 170:2188–2197, 1959.) S89

Volume 125 • *April 1972* • *Number 4*

Original Articles

Cross-Protection among Serotypes of Group A Streptococci. SONIA BERGNER-RABINOWITZ, ITZHAK OFEK, and MAX D. MOODY 339

Rabies in Rabbits and Mice: Protective Effect of Polyriboinosinic-Polyribocytidylic Acid. BURTON JANIS and KARL HABEL 345

Suppression of Chemotactic Activity of Human Neutrophils by Streptolysin O. BURTON R. ANDERSEN and DENNIS E. VAN EPPS 353

Effect of a Vi-degrading Enzyme on Potency of Typhoid Vaccines in Mice. K. H. WONG, JOHN C. FEELEY, and MARGARET PITTMAN 360

Factors Influencing Killing of *Cryptococcus neoformans* by Human Leukocytes In Vitro. R. D. DIAMOND, R. K. ROOT, and J. E. BENNETT 367

Intestinal Adenyl-Cyclase Activity in Canine Cholera: Correlation with Fluid Accumulation. RICHARD L. GUERRANT, LINCOLN C. CHEN, and GEOFFREY W. G. SHARP 377

Serial Transmission in Rhesus Monkeys of an Agent Related to Hepatitis-associated Antigen. WILLIAM T. LONDON, HARVEY J. ALTER, JERROLD LANDER, and ROBERT H. PURCELL 382

Notes

Acute Enteritis Due to Related Vibrio: First Positive Stool Cultures. P. DEKEYSER, M. GOSSUIN-DETRAIN, J. P. BUTZLER, and J. STERNON 390

Cloxacillin Chemoprophylaxis in the Chediak-Higashi Syndrome. DAVID C. DALE, DAVID W. ALLING, and SHELDON M. WOLFF 393

Decreased Skin-Test Reactivity Associated with Influenza. WILLIAM P. REED, JOHN W. OLDS, and ALEXANDER L. KISCH 398

Infectious Mononucleosis: Appearance of Neutralizing Antibody to Epstein-Barr Virus Measured by Inhibition of Formation of Lymphoblastoid Cell Lines. GEORGE MILLER, JAMES C. NIEDERMAN, and DAPHNE A. STITT 403

Test for *Escherichia coli* Enterotoxin Using Infant Mice: Application in a Study of Diarrhea in Children in Honolulu. ANDREW G. DEAN, YI-CHUAN CHING, RONALD G. WILLIAMS, and LEWIS B. HARDEN 407

Airborne *Cryptococcus neoformans*: Particles from Pigeon Excreta Compatible with Alveolar Deposition. KENNETH E. POWELL, BERNHOFF A. DAHL, ROBERT J. WEEKS, and FRED E. TOSH 412

Incorporation of Tritiated Thymidine by Leprosy Bacilli in Cultures of Human Lepromatous Macrophages. DAVID J. DRUTZ and MARTIN J. CLINE 416

Editorial

Neonatal Meningitis. HARRIS D. RILEY, JR. 420

Correspondence

Antibody to *Treponema pallidum* in Cerebrospinal Fluid. WILLIAM A. TAYLOR 426

Simian Virus Reference Center. S. S. KALTER 426

Special Article

Scrapie: A Prototype Slow Infection. G. D. HUNTER 427

From the Center for Disease Control

Shigellosis in the United States, 1970. JOHN N. LEWIS 441

Trends in Meningococcal Disease. DAVID W. FRASER, CLYDE THORNSBERRY, and ROGER A. FELDMAN 443

From the National Institutes of Health

Influenza Virus Polypeptides and Antigens—Summary of Influenza Workshop I. E. D. KILBOURNE, P. W. CHOPPIN, I. T. SCHULZE, C. SCHOLTISSEK, and D. L. BUCHER 447

Antiviral Research in the Soviet Union 455

Notice 456

Volume 125 • *May 1972* • *Number 5*

Original Articles

Treatment of *Hemophilus influenzae* Meningitis: A Comparison of Chloramphenicol and Tetracycline. KENRAD E. NELSON, STUART LEVIN, HAROLD W. SPIES, and MARK H. LEPPER 459

Intrarenal Distribution of Ampicillin in the Normal and Diseased Human Kidney. ANDREW WHELTON, DANIEL G. SAPIR, GORDON G. CARTER, MARY ANN GARTH, and W. GORDON WALKER 466

Response of Monkeys to Immunization with Cholera Toxoid, Toxin, and Vaccine: Reversion of Cholera Toxoid. ROBERT S. NORTHRUP and FRANCIS V. CHISARI 471

Experimental Cholera in Infant Mice: Protective Effects of Antibody. WANPEN CHAICUMPA and DERRICK ROWLEY 480

Killing of Intraleukocytic *Staphylococcus aureus* by Rifampin: In-Vitro and In-Vivo Studies. GERALD L. MANDELL and T. KEITH VEST 486

Ultrastructure of the Liver in Infected and Endotoxin-poisoned Mice Exposed to Cold. WILBERT D. BOWERS, JR., JOSEPH J. PREVITE, and R. C. DAUM 491

The Rectal Culture as a Test of Cure of Gonorrhea in the Female. ARNOLD L. SCHROETER and GLADYS REYNOLDS 499

Comparative Pathogenicity of Albino and Brown Types of *Histoplasma capsulatum* for Mice. RAM P. TEWARI and FRANCES J. BERKHOUT 504

Immunogenicity of the Group A and Group C Meningococcal Polysaccharides in Children. IRVING GOLDSCHNEIDER, MARTHA L. LEPOW, and EMIL C. GOTSCHLICH 509

A Model in Mice for the Pathogenesis and Treatment of Rabies. G. M. BAER and W. F. CLEARY 520

Effect of Cholera Toxin on Jejunal Osmoregulation of Mannitol Solutions in Dogs. D. R. NALIN, K. ALLY, R. HARE, and K. HARE 528

Notes

Electron Microscopy in the Rapid Diagnosis of Cytomegalovirus: Ultrastructural Observation and Comparison of Methods of Diagnosis. SERGE MONTPLAISIR, SERGE BELLONCIK, NICOLE P. LEDUC, PATRICK A. ONJI, BERNARD MARTINEAU, and EDOUARD KURSTAK 533

Quantitative Microassay in Cell Culture for Enterotoxin of *Shigella dysenteriae*. GERALD T. KEUSCH, MARY JACEWICZ, and SHALOM Z. HIRSCHMAN 539

Fatal Encephalitis Due to *Herpesvirus hominis*: Use of Intact Brain Cells for Isolation of Virus. THOMAS C. SHOPE, JOHN KLEIN-ROBBENHAAR, and GEORGE MILLER 542

Propagation of Varicella-Zoster Virus in a Diploid Strain of Embryonic Thyroid Cells from the Rhesus Monkey. PHILIP A. BRUNELL, SANDRA R. WOLMAN, and SHARON STEINBERG 545

The Scalded-Skin Syndrome: Relation to Phage-Group II Staphylococci. ADNAN S. DAJANI 548

Inhibition of Cytomegalovirus by Rifampin. CRYSTIE C. HALSTED, ANTHONY B. MINNEFOR, and PAUL S. LIETMAN 552

The Role of Domestic Animals in the Epidemiology of Plague. III. Experimental Infection of Swine. JOHN D. MARSHALL, JR., DANIEL N. HARRISON, JOHN A. MURR, and DAN C. CAVANAUGH 556

Penicillins and Cephalosporins: Differences in Morphologic Effects on *Proteus mirabilis*. VICTOR LORIAN and L. D. SABATH 560

Editorial

Origin of Epidemics of Venezuelan Equine Encephalitis. NATHANIEL A. YOUNG 565

From the National Institutes of Health

Workshop on Viral Infection and Diabetes Mellitus in Man. JOHN E. CRAIGHEAD 568

United States–Japan Cholera Conference. JOHN P. CRAIG 570

Volume 125 • *June 1972* • *Number 6*

Original Articles

Effects of Various Antisera on the Morphology, Phagocytic Ability, and Metabolism of Guinea-Pig Peritoneal Macrophages. DANIEL M. MUSHER, GERALD T. KEUSCH, and LOUIS WEINSTEIN 575

Outbreak of Hand-Foot-and-Mouth Disease among Indian and Eskimo Children in a Hospital. O. MORGANTE, D. WILKINSON, E. C. BURCHAK, M. BRUCE, and M. RICHTER 587

Humoral Mediators of Chemotaxis of Mononuclear Leukocytes. MARVIN S. HAUSMAN, RALPH SNYDERMAN, and STEPHAN E. MERGENHAGEN 595

Potentiating Effect of *Mycoplasma pneumoniae* Infection on the Development of Pneumococcal Septicemia in Hamsters. CHIEN LIU, PANIDA JAYANETRA, DOUGLAS W. VOTH, LAVAN MUANG-MANEE, and CHENG T. CHO 603

Colonization and Infection with *Pseudomonas cepacia*. GRACE MARY EDERER and JOHN M. MATSEN 613

Relationship of Acute Rheumatic Fever to Acute Glomerulonephritis in Trinidad. ELIZABETH V. POTTER, MAURI SVARTMAN, EMMA G. BURT, JOHN F. FINKLEA, THEO POON-KING, and DAVID P. EARLE 619

Nature of Interaction between M Protein of *Streptococcus pyogenes* and Fibrinogen. W. HRYNIEWICZ, B. LIPINSKI, and J. JELJASZEWICZ 626

Pseudomonas aeruginosa Exotoxin: Effect on Cell Cultures. OLGERTS R. PAVLOVSKIS and FRANCIS B. GORDON 631

Temperature-Sensitivity Characteristics Distinguishing Substrains of Fixed Rabies Virus: Lack of Correlation with Plaque-Size Markers or Virulence for Mice. H. F. CLARK and T. J. WIKTOR 637

Antitoxic Immunity in Experimental Cholera: Comparison of Immunity Induced Perorally and Parenterally in Mice. KOICHIRO FUJITA and RICHARD A. FINKELSTEIN 647

A New Subunit Influenza Vaccine: Acceptability Compared with Standard Vaccines and Effect of Dose on Antigenicity. FREDERICK L. RUBEN and GEORGE GEE JACKSON 656

Notes

Primary Isolation of TRIC Organisms in HeLa 229 Cells Treated with DEAE-Dextran. CHO-CHOU KUO, SAN-PIN WANG, BERTTINA B. WENTWORTH, and J. THOMAS GRAYSTON 665

Cytophagia in Cell Cultures Infected with Cytomegalovirus. PETER DIOSI, LIVIA BABUSCEAC, and DOINA GHERMAN 669

Adjuvant Effect of Cholera Enterotoxin on the Immune Response of the Mouse to Sheep Red Blood Cells. ROBERT S. NORTHRUP and ANTHONY S. FAUCI 672

From the Center for Disease Control

Rabies in the United States, 1951–1970. WILLIAM G. WINKLER 674

Subject Index

Adenyl cyclase, intestinal
  correlation with fluid accumulation, 377
  stimulation by cholera toxin in dogs, 377
Aflatoxin, excretion by frogs implanted with *A. flavus*, 66
Ampicillin
  intrarenal distribution, 466
  iv, for *S. typhi* carriers, 170
Antibiotics
  bacterial infections since introduction (reprinted), S89
  blood levels (reprinted), S80
  evaluation (reprinted), S77
  sensitivity of *B. fragilis*, 295
  studies of new drugs (reprinted), S74
Antibodies, to IgG, increase in infections due to gram-positive bacteria, 45
Antibody, to hepatitis-associated antigen, after serial transmission of agent related to HAA, 382
Antigen, hepatitis-associated, and delayed hypersensitivity in guinea pigs, 73
Antisera
  to peritoneal macrophages in guinea pigs, 575
  to pulmonary macrophages in guinea pigs, effect on peritoneal macrophages, 575
  to lymphocytes in guinea pigs, effect on peritoneal macrophages, 575
  to renal tissues in guinea pigs, effect on peritoneal macrophages, 575
Aspergillus flavus, implanted in frogs, and excretion of aflatoxin, 66
Bacteremia, detection in infants, 325
Bacteria
  gram-positive, infections and increased antibodies to IgG, 45
  L-phase variants, and antibody-complement system in human serum, 231
  see also names of genera and species
Bacteroides fragilis, sensitivity to 24 antibiotics, 295
Besnoitiosis, cellular immunity, and radiation effects, 216
Brucellosis, in the United States, 289
Candida, systemic infections, diagnosis and treatment, 190
Candida albicans
  clumping factors in serum, 102, 115
  effect of immune response, 115
Candidiasis, systemic, diagnosis and treatment, 190
Carbenicillin, with gentamicin, and bactericidal activity of serum, 183
Cephalosporins, morphologic effect on *P. mirabilis*, 560
Cerebrospinal fluid, from syphilitic chimpanzees, reactivity in treponemal and nontreponemal tests, 61
Chemotaxis
  of mononuclear leukocytes, humoral mediators, 595
  suppression in neutrophils by streptolysin O, 353
Chediak-Higashi syndrome, effect of cloxacillin chemoprophylaxis on pyogenic infections, 393
Chloramphenicol, comparison with tetracycline in therapy of *H. influenzae* meningitis, 459
Cholera
  activation of intestinal adenyl cyclase in dogs, 377
  acute, toxin in stools and jejunal aspirates of patients, 36
  antitoxic immunity, peroral and parenteral induction in mice, 647
  in mice, protective effects of antibody, 480
  skin toxin in man, cutaneous responses in unimmunized American males, 203
  toxin, effect on jejunal osmoregulation of mannitol solutions in dogs, 528
  toxoid, reversion to toxin in immunization of monkeys, 471
  United States–Japan conference, 570
Clostridia, and effects of hyperbaric oxygen, 17, 26
Clostridium perfringens, inactivation by hyperbaric oxygen, 26
Cloxacillin, effect of chemoprophylaxis in the Chediak-Higashi syndrome, 393
Coccidia, feline, rodents as vectors, 69
Cocoanut Grove disaster (excerpted), S58, S60
Coxsackievirus A16, isolation in outbreak of hand-foot-and-mouth disease in Canada, 587
Cross-protection, among serotypes of Group H streptococci, 339
Cryptococcosis, with *C. neoformans*, relation to airborne particles in pigeon excreta, 412
Cryptococcus neoformans
  airborne, particles in pigeon excreta, 412
  phagocytosis and killing by leukocytes, 367
Cytomegalovirus
  cytophagia in CMV-infected cell cultures, 669
  electron microscopy for rapid diagnosis, 533
  inhibition by rifampin, 552
  macroglobulin, 304
Cytophagia, in cell cultures infected with cytomegalovirus, 669
DEAE-dextran
  enhancement of infectivity of TRIC, 313
  for differentiation of TRIC and LGV, 313
  treatment of HeLa cells for isolation of TRIC organisms, 665
Diarrhea, relation to *E. coli* enterotoxin, 407
Diabetes mellitus, and viral infection, 568
Diplococcus pneumoniae
  infection in monkeys and changes in plasma lipids and lipoproteins, 54
  septicemia, effect of *M. pneumoniae*, 603
Drug-resistance factors, transferable, and salmonella-shigella agar, 310
Encephalitis, due to Sindbis virus, age-dependent resistance in mice, 257
Encephalopathies, subacute spongiform, characteristics, 427
Endotoxin-poisoned mice, cold exposure, ultrastructure of liver, 491
Enteritis, acute, due to related vibrio, 390
Enterobacteriaceae, with transferable drug-resistance factors, growth on salmonella-shigella agar, 310

Enterotoxin
of *E. coli*, test for detection in infant mice, used in study of diarrhea in children in Honolulu, 407
of *S. dysenteriae* type 1, microassay in cell culture, 539
Epidemiology
in a hospital, S84
plague (*Y. pestis*), role of swine, 556
Reye's syndrome, 77
varicella-zoster, 82
Venezuelan equine encephalitis, 565
Epstein-Barr virus, stimulation of neutralizing antibody by infectious mononucleosis, 403
Escherichia coli
and *Shigella*, hybrid strain, for immunity to shigellosis, 5, 12
enterotoxin, test for detection in infant mice, use in study of diarrhea in children in Honolulu, 407
stimulation of intestinal secretion by culture filtrates, 300
Fellows in infectious diseases, Harvard Medical Service, Boston City Hospital, S4
Fibrinogen, interaction with M protein of *S. pyogenes*, 626
Finland, Maxwell, a tribute, S1–S100
see also specific subjects, i.e., antibiotics, pneumonia
Frogs, implanted with *A. flavus*, excretion of aflatoxin, 66
Gangrene, gas, therapy with hyperbaric oxygen, 26
Gentamicin, with carbenicillin, and bactericidal activity of serum, 183
Glomerulonephritis, acute, relationship to acute rheumatic fever in Trinidad, 619
Gonorrhea, in female, rectal culture to test cure, 499
Hand-foot-and-mouth disease, outbreak in Canadian hospital, 587
Hemophilus influenzae meningitis, comparison of chloramphenicol and tetracycline, 459
Hepatitis, immunoglobulins in disease due to hepatitis-associated antigen, 178
Hepatitis-associated antigen
delayed hypersensitivity in guinea pigs, 73
immunoglobulin levels, 178
separation into morphologic types, 263
serial transmission of related agent in rhesus monkeys, 382
Herpesvirus infection
cell-associated and cytomegalovirus macroglobulin, 304
cellular immunity and radiation effects, 216
Histoplasma capsulatum
comparative pathogenicity of albino and brown types, 504
serologic differences between albino and brown types, 276
Histoplasmins, derived from albino and brown isolates, 276
Histoplasmosis, chronic pulmonary, and immune response, 269
Hypersensitivity, delayed, to hepatitis-associated antigen, in guinea pigs, 73
Immune response, in chronic pulmonary histoplasmosis, 269
Immunity
and infectivity of rhinovirus in volunteers, 243
antitoxic, to cholera, peroral and parenteral induction in mice, 647
cellular, to besnoitiosis and herpesvirus infection, and radiation, 216
Immunoglobulins
IgG fragments, increased antibodies and infection due to gram-positive bacteria, 45
in viral hepatitis, 178
Immunology, of shigellosis, 5, 12
Infection
bacterial, since introduction of antibacterial agents, S89
clostridial, therapy with hyperbaric oxygen, 17, 26
D. pneumoniae and *S. typhimurium* in monkeys, 54
gram-positive bacteria, and increased antibodies to IgG, 45
herpesvirus, cellular immunity and radiation effects, 216
primary, with attenuated strains of *Shigella* for immunity to shigellosis, 12
pyogenic, with Chediak-Higashi syndrome, effect of cloxacillin chemoprophylaxis, 393
T. pallidum, in chimpanzees, 61
varicella-zoster, prevention and control, 82
Infectious Diseases Society of America
Artenstein honored, 202
Bristol award, 199
officers and council, 337
Squibb award, 92
Infectious mononucleosis, neutralizing antibody to Epstein-Barr virus measured by inhibition of lymphoblastoid cell lines, 403
Infectivity, of two rhinoviruses, 243
Influenza, association with decreased skin-test reactivity, 398
Influenza virus
polypeptides and antigens, 447
vaccine, subunit, acceptability and antigenicity, 656
Interferon
inducers and other antiviral substances, research in USSR, 455
response in cats, 174
Intestinal secretion, stimulation by *E. coli* culture filtrates, 300
Isospora felis, rodents as vectors, 69
Isospora rivolta, rodents as vectors, 69
Lagos bat virus, serologic relationship to other viruses of rabies serogroup, 322
Leukocytes
mononuclear, chemotaxis, humoral mediators, 595
phagocytosis of *C. neoformans*, 367
Lymphogranuloma venereum, differentiation from TRIC by effect of DEAE-dextran on infectivity, 313
Lipids, in plasma, and infection with *D. pneumoniae* or *S. typhimurium*, 54
Lipoproteins, in plasma, and infection with *D. pneumoniae* or *S. typhimurium*, 54

Listeria monocytogenes, response of schistosome-infected mice, 249
L-phase variants of bacteria, and antibody-complement system in human serum, 231
Lungs, deposition of airborne *C. neoformans* particles from pigeon excreta, 412
Lymphoblastoid cell lines, inhibition of formation, use in measuring antibody to Epstein-Barr virus in infectious mononucleosis, 403
Lymphocytes, transformation in human toxoplasmosis, 283
Macrophages
peritoneal, effect of various antisera on morphology, phagocytosis, and metabolism, 575
tritiated-thymidine labeling of *M. leprae,* 416
Malaria, in the United States and Puerto Rico, 194
Meningitis
H. influenzae, comparison of chloramphenicol and tetracycline, 459
meningococcal, penicillin therapy (reprinted), S36
neonatal, 420
Metabolism, of Vero cells, effect of *P. aeruginosa* exotoxin, 631
Methicillin, resistance of *S. aureus,* 1
Microbiology, and clinical medicine, history, 85
Monkey, infection with *D. pneumoniae* or *S. typhimurium,* 54
Morphology
gram-negative bacilli, effect of nitrofurantoin, 187
of candida, effect of anticandida factor in serum, 115
of hepatitis-associated antigen, 263
Mycobacterium leprae, tritiated-thymidine labeling in human macrophages, 416
Mycoplasma fermentans, toxicity for mice, 153
Mycoplasma pneumoniae, effect of infection on pneumococcal septicemia, 603
Mycoplasmas, T-strains, effect of thallium acetate on growth, 318
Myxoma virus, restriction of infection in rabbits, 141
Neisseria gonorrhoeae, cervical and rectal cultures, 499
Neisseria meningitidis
epidemiology, 443
polysaccharides, immunogenicity in children, 569
Neutrophils, suppression of chemotaxis by streptolysin O, 353
Nitrofurantoin, effect on morphology of gram-negative bacilli, 187
Oxygen, hyperbaric, effects on clostridia, 17, 26
Paramyxoviruses, workshop, 336
Penicillin
and sulfonamides, introduction, S22
morphologic effect on *P. mirabilis,* 560
therapy of meningococcal meningitis (reprinted), S36
Phagocytosis and killing of *C. neoformans* by leukocytes, 367
Plague, *Y. pestis,* role of swine in epidemiology, 556
Plaque size, rabies virus, lack of correlation with temperature sensitivity, 637
Pneumococcus
antibody response of humans to injection of pneumococcal products (reprinted), S10
human host, S8
Pneumonia
nonbacterial, work of Maxwell Finland, S47
pneumococcal, immunology (reprinted), S10
pneumococcal, recurrences (reprinted), S15
pneumococcal, serum therapy and chemotherapy (excerpted), S26
Polycations, restriction of myxoma infection in rabbits, 141
Polyriboinosinic-polyribocytidylic acid, protection against rabies in rabbits and mice, 345
Proteus mirabilis, morphologic effects of penicillins and cephalosporins, 560
Pseudomonas aeruginosa
exotoxin, effect on cell culture, 631
types in a cancer research center, 95
Pseudomonas cepacia, colonization and infection, 613
Pseudomonas pseudomallei, identification, 325
Rabies
pathogenicity and treatment in mice, 520
protective effect of polyriboinosinic-polyribocytidylic acid in rabbits and mice, 345
serogroup, vaccination and challenge of mice, 322
Rabies virus
serologic relation to Lagos bat and Iban 27377 viruses, 322
temperature sensitivity, lack of correlation with plaque size of virulence, 637
Radiation, effect on cellular immunity to besnoitiosis and herpesvirus infection, 216
Resistance, to viral encephalitis, in mice, 257
Respiratory tract, conflagration injuries, therapy (excerpted), S60
Reye's syndrome, 77
R factors, reduced plating of Enterobacteriaceae, 310
Rheumatic fever
relationship to glomerulonephritis in Trinidad, 619
relationship to streptococcal infections in Trinidad, 619
Rhinovirus, infectivity and immunity in volunteers, 243
Rickettsiae, propagation in cell culture for Rocky Mountain spotted fever vaccine, 146
Rift Valley fever, susceptibility of dogs and cats by inhalation or ingestion of virus, 307
Rifampin
inhibition of cytomegalovirus, 552
killing of intraleukocytic *S. aureus,* 486
Rocky Mountain spotted fever, preparation of vaccine, 146
Rodents, as vectors of feline coccidia, 69
Rubella, current status in the United States, 327
Salmonella enteritidis, response of schistosome-infected mice, 249
Salmonella typhi, ampicillin therapy for carriers, 170
Salmonella typhimurium
endotoxin, effect on liver of cold-exposed mice, 491
infection in monkeys and changes in plasma lipids and lipoproteins, 54
Salmonellosis, in the United States, 1970, 194
Scalded-skin syndrome
relationship to phage-group II staphylococci, 548
staphylococcal, toxin, 129

Schistosoma mansoni, infection of mice, and response to *S. enteritidis* and *L..monocytogenes,* 249
Scrapie, prototype slow infection, 427
Shigella, attenuated strains and immunity to shigellosis, 5, 12
Shigella dysenteriae type 1, enterotoxin, quantitative microassay in cell culture, 539
Shigellosis
epidemiology, in the United States, 1970, 441
immunity from attenuated strains of *Shigella,* 5, 12
Simian Virus Reference Center, study of diseases in primates, 426
Sindbis virus, age-dependent resistance in mice, 257
Skin tests, decreased reactivity associated with influenza, 398
Slow infections
scrapie, 427
encephalopathies, subacute spongiform, characteristics, 427
Smallpox, in Europe, 1950–1971, 161
Staphylococci
phage group II, and scalded-skin syndrome, 548
scalded-skin syndrome, 129
Staphylococcus aureus
intraleukocytic, killing by rifampin, 486
small-colony variant and parent strain, resistance to methicillin, 1
Streptococci, cross-protection among Group A serotypes, 339
Streptococcus pyogenes, M protein, interaction with fibrinogen, 626
Streptococcal infections
relationship to acute rheumatic fever in Trinidad, 619
relationship to acute glomerulonephritis in Trinidad, 619
Streptolysin O, suppression of chemotaxis in neutrophils, 353
Subacute sclerosing panencephalitis
clinical, virologic, and histopathologic studies, 123
simultaneously in siblings, 123
Sulfonamides
and penicillin, introduction, S22
therapy of pneumonia (excerpted), S26
Syphilis, in chimpanzees, 61
Temperature sensitivity of rabies virus, lack of correlation with plaque size or virulence, 637
Tetracycline, comparison with chloramphenicol in therapy of *H. influenzae* meningitis, 459
Thallium acetate, effect on growth of T-mycoplasmas from clinical specimens, 318
Thymidine, tritiated, incorporation by *M. leprae* in human macrophages, 416
Toxin, *see* specific organism or disease
Toxoplasmosis, and lymphocyte transformation in humans, 283
Trachoma-inclusion conjunctivitis organisms
isolation in HeLa cells treated with DEAE-dextran, 665
differentiation from lymphogranuloma venereum by effect of DEAE-dextran on infectivity, 313
Treponema pallidum
antibody in cerebrospinal fluid, 426
infection and cerebrospinal fluid in chimpanzees, 61
Treponemes, workshop on biology, 332
Typhoid vaccines, effect of Vi-degrading enzymes on protective activity in mice, 360
Uhr, Jonathan, recipient of Squibb award, 92
Ultrastructure, of methicillin-resistant *S. aureus,* small-colony variant and parent strain, 1
Vaccine
influenza virus, subunit, acceptability and antigenicity, 656
live, oral, against shigellosis, 12
typhoid, effect of Vi-degrading enzyme on potency in mice, 360
Varicella-zoster virus, growth in diploid strain of embryonic simian thyroid cells, 545
Variola infection, in Europe, 1950–1971, 161
Venezuelan equine encephalitis, epidemics, 565
Vibrio cholerae
enterotoxin, induction of immunity in mice, 647
see also cholera
Vibrio, related, cause of acute enteritis, isolation from stool cultures, 390
Vi-degrading enzyme, effect on typhoid vaccine in mice, 360
Viral infection, and diabetes mellitus, 568
Virulence of rabies virus for mice, lack of correlation with temperature sensitivity, 637
Virus, *see* names of specific viruses
Waterborne diseases, outbreaks in the United States, 1961–1970, 329
Yersinia pestis, epidemiology, role of swine, 556

Subject Index

Amines, and nitrosamines, produced by *P. mirabilis*, gas chromatography, 143
Amino acids, in blood during myocarditis due to coxsackie B_3 virus, 574
Amphotericin B, obfuscation of antifungal activity by culture media, 353
Ampicillin, measurement of levels in human interstitial fluid, 492
Antibacterial substance, of rabbit polymorphonuclear leukocytes, 131
Antibiotic-induced renal damage in rats, effect of furosemide, 593
Antibiotics
  and infection, Third Annual Meeting, 352
  method for measurement of activity in human interstitial fluid, 492
Antibodies (see also under specific infectious agents)
  to hepatitis-associated antigen, in sera of convalescents and patients with viral hepatitis, 200
  to herpes simplex virus, increase in patients with nasopharyngeal cancer, 186
Antimicrobics, antifungal, obfuscation of activity by culture media, 353
Antiviral agents, lack of antiviral activity of isoprinosine, 162
Bacterial colonies, mechanism of size limitation, 629
Bacteroides fragilis, bactericidal activity of five antimicrobial agents, 104
Benzylpenicillin, measurement of levels in human interstitial fluid, 492
Cancer, nasopharyngeal, increased antibody to herpes simplex virus, 186
Candida albicans, antimicrobics for, obfuscation of anticandidal activity by culture media, 353
Candidiasis, systemic, diagnosis and treatment, 548, 550
Cats, prevention of toxoplasmosis, 664
Cat-scratch disease, titers of antibody to Epstein-Barr virus in sera compared with those in cases of mononucleosis and in normal individuals, 464
Center for Disease Control, schedule of laboratory training courses, June 1972–July 1973, 110
Cephalexin, measurement of levels in human interstitial fluid, 492
Cephalothin, in therapy of infections with methicillin-resistant *S. aureus*, 674
Chemotaxis, of neutrophils, reduction in acute renal failure, 460
  resulting from interaction of antiviral antibody and complement with cells, 207
Chlamydiae, entry and release from infected intestinal epithelial cells, 652
7-Chlorolincomycin, bactericidal effect on *B. fragilis* in vitro, 104
Cholera (see also *Vibrio cholerae*)
  and other enterotoxin-related diarrheal diseases, discussion of current status, 551
  experimental, protection by antitoxin, 606
  presence of antibacterial antibody in sera and intestinal secretions of patients, 401
  protection in infant mice by antibodies to three antigens of *V. cholerae*, 41
  toxin, in-vivo localization, 617
Cholinesterase-restoring agents, in therapy of experimental tetanus, 537
Chromatography, gas, of amines and nitrosamines produced by *P. mirabilis*, 143
Clotrimazole, obfuscation of antifungal activity by culture media, 353
Cockroaches, as transport hosts of *T. gondii*, 545
Coronaviruses
  characterization of sialodacryoadenitis virus of rats, 123
  workshop of the NIAID, 114
Corynebacterium diphtheriae
  in skin lesions, relationship to epidemic diphtheria in Trinidad, 34
  phage typing, in outbreaks in southwestern United States, 196
Council of Biology Editors, Style Manual, third edition available, 352
Counterimmunoelectrophoresis, use for rapid demonstration of precipitating antibody to influenza virus, 345
Coxsackie B_3 virus, murine myocarditis, blood amino acids, virology, and histopathology, 574
Cyclophosphamide, effect on development of measles encephalitis in rhesus monkeys, 154
Cytomegalovirus infections, during acute childhood leukemia, 469
Dick test results, 1969–1971
Diphtheria, epidemic, relationship to *C. diphtheriae* in skin lesions in Trinidad, 34
Diplococcus pneumoniae, increased susceptibility of splenectomized rats to infection, 507
Drugs, illicit parenteral use, effect on viral hepatitis morbidity in the United States, 288
Encephalitis
  chronic inclusion-cell, from hamster-adapted agent of subacute sclerosing panencephalitis, age-related susceptibility in hamsters, 18
  measles, in normal and cyclophosphamide-treated rhesus monkeys, 154
Encephalitozoonosis, evidence for vertical transmission, 212
Endotoxin, of *E. coli*, effect on temperature and sleep cycles of rats, 179
Enterotoxins
  bacterial, mechanisms of action in cholera and choleralike diseases, 551
  of *S. dysenteriae* 1 and *V. cholerae*, effect on epithelial cells of rabbits in vivo, 92
Enteroviruses, bovine, isolated with bovine parvoviruses, 531
Epidemiology (see under specific diseases)

Epstein-Barr virus
antibody to, in sera of patients with cat-scratch disease and mononucleosis and in normal individuals, 464
responses of gibbons to inoculation, 678
Escherichia coli
cidal activity of substance from rabbit polymorphonuclear leukocytes, 131
endotoxin, effect on temperature and sleep cycles of rats, 179
limitation of colony size, 629
Exotoxin, of *P. aeruginosa*, effect on cellular and mitochondrial respiration in mice, 48
Ferrets
increased concentration of proteins in nasal secretions after infection with influenza virus, 387
presence of HAI antibody in nasal secretions after infection with influenza virus, 394
Finland, Maxwell, in appreciation, 108
Flucloxacillin, measurement of levels in human interstitial fluid, 492
5-Fluorocytosine, obfuscation of antifungal activity by culture media, 353
Furosemide, effect on antibiotic-induced renal damage in rats, 593
Gibbons, responses to Epstein-Barr virus, 678
Gonorrhea, in man, adherence of *N. gonorrhoeae* to urethral mucosal cells, 601
Graduate training program in epidemiology, University of Michigan, 233
Haemophilus aphrophilus, detection in human oral flora with selective medium, 189
HA antibody
absorption by solubilized antigen and intact virus, 108
to hepatitis B antigen, development and distribution in institutionalized populations, 498
HAI antibody, absorption by solubilized antigen and intact virus, 108
Hepatitis
different forms, etiologic relationship to hepatitis-associated antigen, 372
viral, effect of parenteral drugs on morbidity reports in the United States, 288
workshops of the NIAID, 112, 682
Hepatitis, acute, viral, increased incidence associated with epidemic parenteral drug abuse, 87
Hepatitis-associated antigen
and specific antibodies in sera of convalescents and patients with viral hepatitis, 200
determination and distribution of two types, 117
development and distribution of hemagglutinating antibody in institutionalized populations, 498
distribution of determinants in viral hepatitis, 569
increased incidence associated with epidemic parenteral drug abuse, 87
localization in hepatocytes of patients with different forms of hepatitis, 372
Hepatitis "candidate" agents, comparison with parvovirus in Detroit 6 cell cultures, 203
Hepatosplenic disease, induction by single pairs of Philippine, Formosan, Japanese, and Chinese strains of *S. japonicum*, 482
Herpes simplex virus, increased antibody in patients with nasopharyngeal cancer, 186
Hyperosmolality, comparable to that of renal medulla, effect on functions of polymorphonuclear leukocytes, 1
Immunodepression, associated with concomitant toxoplasma and malarial infections in mice, 54
Immunoglobulins, IgA, predominance in antibody in intestinal secretions of patients with diarrhea, 401
Immunoglobulins, IgG
in nasal secretions of ferrets infected with influenza virus, 387
predominance in serum antibody of patients with diarrhea, 401
Immunologic recognition, split, explained by abbreviated viral replication in fetal monkeys infected in utero, 249
Indians, American, health on Apache reservation, 348
Infections, U.S. travelers to Europe, 684, 685
Infectious Diseases Society of America, program for annual meeting, 351
Inflammation and viral infection, chemotaxis resulting from interaction of antiviral antibody and complement with cells infected with herpes simplex virus, 207
Influenza, immunization, field trial on a university campus, 242
Influenza, swine, serologic studies in Hawaii, 210
Influenza vaccine, evaluation of *ts* mutants attenuated for man, 170
Influenza A viruses, antigenic memory in man to sequential infections, 61
Influenza virus
immunity, 466, 387, 394
precipitating antibody, rapid method for demonstration by counterimmunoelectrophoresis, 348
presence of HAI antibody in nasal secretion in nasal secretions of infected ferrets, 394
ts mutants, attenuation for man, 170
Isoprinosine, no antiviral activity in experimental infections, 162
Kanamycin
R-factor-mediated resistance to, acquired in vivo by a multiresistant strain of *S. sonnei*, 27
therapy of infections with methicillin-resistant *S. aureus*, 674
Leukemia, acute childhood, cytomegalovirus infections, 469
Leukocytes, polymorphonuclear
effect of osmolalities comparable to those of renal medulla on migration, aggregation, adhesion, phagocytosis, and killing of bacteria, 1
interaction with *P. aeruginosa* and serum factors, 257
of rabbits, in-vitro activity of antibacterial substance, 131
Malaria, and toxoplasmosis, concomitant in mice, related immunodepression, 54
Measles encephalitis, in normal and cyclophosphamide-treated rhesus monkeys, 154
Measles virus, comparison with viruses isolated from patients with subacute sclerosing panencephalitis, 11

Meningitis, antigen of and antibody to *N. meningitidis* during illness, 636
Methicillin-resistant *S. aureus*, treatment of infections with other antibiotics, 674
Metronidazole, bactericidal effect against 19 strains of *B. fragilis* in vitro, 104
Minocycline, slow bactericidal effect on wall-defective *Staphylococcus*, 457
Mitochondria, metabolism
  comparative effects of purified staphylococcal alpha and delta toxins, 96
  effect of *P. aeruginosa* exotoxin on cellular and mitochondrial respiration, 48
Mononucleosis
  infectious, possible causality by Epstein-Barr virus, 678
  titers of antibody to Epstein-Barr virus in sera, compared with those in cases of cat-scratch disease and in normal individuals, 464
Mumps virus, intrauterine infection of rhesus monkeys, abbreviated viral replication in fetus as explanation for split immunologic recognition, 249
Mycobacteria, catalog available, 683
Mycoplasmas, T-strains, serologic typing, 658
Nafcillin, measurement of levels in human interstitial fluid, 492
Neisseria gonorrhoeae, adherence to urethral mucosal cells in human gonorrhea, electron microscopy, 601
Neisseria meningitidis
  group B, polysaccharide, vaccines and immunologic response of man, 514
  polysaccharide antigen and antibody in serum during disease, 637
Nitrosamines and amines, produced by *P. mirabilis*, gas chromatography, 143
Opsonins, heat stable, relationship with type-specific lipopolysaccharides of *P. aeruginosa*, 277
Parvoviruses, bovine, isolation and comparison, 531
Parvovirus, comparison with hepatitis "candidate" agents in Detroit 6 cell cultures, 203
Phage typing of *C. diphtheriae*, in outbreaks in southwestern United States, 1968–1971, 196
Phagocytosis, effect of *Y. pestis* fraction 1, 235
Phenoxymethylpenicillin, measurement of levels in human interstitial fluid, 492
Plasmodium berghei yoelii, immunodepression associated with concomitant infection with *T. gondii* in mice, 54
Pralidoxime methane sulfonate, in therapy of experimental tetanus, 537
Prostatitis, experimental, with *P. mirabilis*, relation to pyelonephritis, 645
Proteus mirabilis
  experimental prostatis and pyelonephritis, 645
  gas chromatography of amines and nitrosamines produced, 143
Pseudomonas aeruginosa
  cidal activity of substance from rabbit polymorphonuclear leukocytes, 131
  exotoxin, effect on cellular and mitochondrial respiration in mice, 48
  human immunity, 257, 277
Pyelonephritis, relation to experimental prostatitis due to *P. mirabilis*, 645
R factor
  associated with epidemics of *Shigella* and *Salmonella typhi* in Central America, 215
  in-vivo interbacterial transfer of kanamycin resistance to a multiresistant strain of *Shigella sonnei*, 27
Rabies, rodent, in the United States, 565
Rabies vaccines, role of interferon induction in protective activity, 408
Rasmussen, A. F., Jr., appointed NIAID virology consultant, 232
Renal failure, acute, reduction in generation of chemotactic factors in serum, 460
Renal medulla, effect of hyperosmolality on functions of polymorphonuclear leukocytes, 1
Rifampicin
  effect on delayed-hypersensitivity reactions, 542
  (rifampin), lack of bactericidal effect on *B. fragilis* in vitro, 104
Rubella, protection of nonimmune humans by intravenous normal human γ-globulin, 341
Rubella virus, acquired and congenital infection in rats, 585
Scarlet fever, Dick test results, 1969–1971, 136
Sialodacryoadenitis virus, of rats, characterization as a corona virus, 123
Salmonella enteritidis, heat-killed vaccine, effect of adjuvant on immunogenicity in mice, relationship to protection against typhoid, 69
Salmonella typhi, R factor and epidemics in central America, 215
Salmonella typhimurium
  capacity of inbred mice to acquire resistance, 378
  cidal activity of substance from rabbit polymorphonuclear leukocytes, 131
Salmonella typhosa, depression of amino acids and trace metals in serum by an endogenous mediator during typhoid fever, 77
Schistosoma japonicum, induction of hepatosplenic disease by single pairs of the Philippine, Formosan, Japanese, and Chinese strains, 482
Shigella, R factor and epidemics in Central America, 215
Shigella dysenteriae 1
  enterotoxin, cytotoxic effect on intestinal epithelial cells of rabbits in vivo, compared with effect of cholera enterotoxin, 92
  shigellosis due to, relative importance of mucosal invasion vs. toxin production in pathogenesis, 523
Shigella sonnei, in-vivo acquisition of R-factor-mediated resistance to kanamycin, 27
Shigellosis, due to *S. dysenteriae* 1, relative importance of mucosal invasion vs. toxin production in pathogenesis, 523
Sleep cycles of rats, effect of *E. coli* endotoxin, 179
Smallpox vaccine, live, and live yellow-fever vaccine,

effect of interval between inoculations on antigenicity in man, 362
Splenectomy, relationship to increased susceptibility of rats to infection with *D. pneumoniae,* 507
Staphylococcus aureus
alpha and delta toxins, comparative effects on mitochondrial metabolism, 96
methicillin-resistant, treatment of infection with several antibiotics, 674
wall-defective, slow bactericidal effect of tetracycline and minocycline, 457
Streptococcus, group A, mechanisms of cell and tissue injury, relation to post-streptococcal sequelae, 294, 419
Streptococcus pyogenes, Dick test results, 1969–1971, 136
Subacute sclerosing panencephalitis
experimental, correlation of age with chronic inclusion-cell encephalitis in hamster, 18
in-vitro characterization of virus isolated from brain cells in culture, 11
Task Force on Immunology and Disease, NIAID, 568
Temperature, of rats, effect of *E. coli* endotoxin, 179
Temperature-sensitive mutants, influenza virus, attenuation for man, 170
Tetanus, experimental, in donkeys, effect of therapy with cholinesterase-restoring agents, 537
Tetracycline
lack of bactericidal effect on *B. fragilis* in vitro, 104
slow bactericidal effect on wall-defective *Staphylococcus,* 451
Thomas Francis, Jr. Memorial Lecture, third annual, 568
Toxoplasma gondii
experimental transmission by cockroaches, 545
immunodepression associated with concomitant malaria in mice, 54
infection in cats, 664
Toxoplasmosis, prevention in cats and man, 664
Typhoid fever, depression of amino acids and trace metals in serum by an endogenous mediator, 77
Typhoid, murine, protection by heat-killed salmonella vaccine, 69
Transmissible enteritis virus of turkeys, factors affecting stability, 182
Trichinosis, in United States, 1971, 687
Tuberculin, inhibition of reaction by rifampicin in guinea pigs and rats, 542
Vaccine
heat-killed *Salmonella,* effect of adjuvant on immunogenicity in mice, relationship to typhoid protection, 69
influenza virus, role of interferon induction in protection of hamsters against rabies, 408
Kern Canyon, role of interferon induction in protection of hamsters against rabies, 408
polysaccharide, prepared from group B *N. meningitidis* and tested in man, 514
rabies, role of interferon induction in protective activity, 408
S. typhimurium, in mice, 378
smallpox, live, and live yellow-fever, effect of interval between inoculations on antigenicity in man, 362
yellow-fever, live, and live smallpox, effect of interval between inoculations on antigenicity in man, 362
Vancomycin
lack of bactericidal effect on *B. fragilis* in vitro, 104
therapy of infections with methicillin-resistant *S. aureus,* 674
Varicella-zoster infections, rapid diagnosis, 193
Vibrio cholerae
presence of antibacterial antibody in sera and intestinal secretions of patients, 401
protection in infant mice by antibodies to three antigens, 41
toxin and toxoid in protection against infection, 606
toxin, effect on intestinal epithelial cells of rabbits compared with that of *S. dysenteriae* 1 enterotoxin, 92
Virology, second international congress, summary, 230
Virus-antibody complexes, cytotoxic, 682
Vitamin B_{12}, in therapy of experimental tetanus, 537
Yellow-fever vaccine, live, and live smallpox vaccine, effect of interval between inoculations on antigenicity in man, 362
Yersinia pestis, fraction 1, effect on phagocytosis in vitro, 235

Original Articles

Effect of Osmolalities Comparable to Those of the Renal Medulla on Function of Human Polymorphonuclear Leukocytes. RICHARD E. BRYANT, MARILYN C. SUTCLIFFE, and ZELL A. MCGEE 1

Subacute Sclerosing Panencephalitis: In-Vitro Characterization of Viruses Isolated from Brain Cells in Culture. VOLKER TER MEULEN, MICHAEL KATZ, YONTA-M. KÄCKELL, GIUSEPPE BARBANTI-BRODANO, HILARY KOPROWSKI, and EDWIN H. LENNETTE 11

Experimental Subacute Sclerosing Panencephalitis in the Hamster: Correlation of Age with Chronic Inclusion-Cell Encephalitis. DONALD P. BYINGTON and KENNETH P. JOHNSON 18

Interbacterial Transfer of R Factor in the Human Intestine: In-Vivo Acquisition of R-Factor-mediated Kanamycin Resistance by a Multiresistant Strain of *Shigella sonnei*. W. EDMUND FARRAR, JR., MARGENE EIDSON, PATRICIA GUERRY, STANLEY FALKOW, LEWIS M. DRUSIN, and RICHARD B. ROBERTS 27

Epidemic Diphtheria and Skin Infections in Trinidad. JUANITA P. BRAY, EMMA G. BURT, ELIZABETH V. POTTER, THEO POON-KING, and DAVID P. EARLE 34

Protection of Infant Mice against Cholera by Antibodies to Three Antigens of *Vibrio cholerae*. SIM HEE NEOH and DERRICK ROWLEY 41

Pseudomonas aeruginosa Exotoxin: Effect on Cellular and Mitochondrial Respiration. OLGERTS R. PAVLOVSKIS 48

Immunodepression Associated with Concomitant Toxoplasma and Malarial Infections in Mice. G. T. STRICKLAND, A. VOLLER, L. E. PETTIT, and D. G. FLECK 54

Antigenic Memory in Man in Response to Sequential Infections with Influenza A Viruses. MORIHIRO MORITA, TSUNEHISA SUTO, and NAKAO ISHIDA 61

Effect of Adjuvant on Immunogenicity of a Heat-Killed Salmonella Vaccine. F. M. COLLINS 69

An Endogenous Mediator of Depression of Amino Acids and Trace Metals in Serum during Typhoid Fever. R. W. WANNEMACHER, JR., H. L. DUPONT, R. S. PEKAREK, M. C. POWANDA, A. SCHWARTZ, R. B. HORNICK, and W. R. BEISEL 77

Eight Years of Surveillance of Patients Hospitalized with Hepatitis: Interpretation of Data in Light of Epidemic Parenteral Drug Abuse and Availability of Testing for Hepatitis-associated Antigen. GEORGE F. GRADY, ANN J. E. BENNETT, PATRICIA O'DEA CULHANE, JOHN N. FORREST, JR., FRANK L. IBER, and THE BOSTON INTER-HOSPITAL LIVER GROUP 87

The Pathogenesis of Shigella Diarrhea. II. Enterotoxin-induced Acute Enteritis in the Rabbit Ileum. GERALD T. KEUSCH, GEORGE F. GRADY, AKIO TAKEUCHI, and HELMUTH SPRINZ .. 92

Comparative Effects of Purified Staphylococcal Alpha and Delta Toxins on Mitochondrial Metabolism. JAMES J. RAHAL, JR. 96

Note

Bactericidal Activity of Five Antimicrobial Agents against *Bacteroides fragilis*. LAWRENCE J. NASTRO and SYDNEY M. FINEGOLD 104

Correspondence

Absorption of HAI Antibody by Solubilized Antigen and Intact Virus. E. A. ECKERT 108

In Appreciation. MAXWELL FINLAND 108
